Press Releases

FOR IMMEDIATE RELEASE:

Sheriff Louis Ackal would like to advise that the citizens of Iberia Parish should take precaution concerning water levels near the Lake Fausse Pointe and Lake Dauterive area due the potential opening the Morganza floodgates. According to information received, water levels there are not expected to be an issue. However, Sheriff Ackal would ask citizens to prepare any property or live stock in the North East area of the Parish if there were to be any issue with levees in that region. At this time the levees are being closely monitored and the Sheriff's office is asking motorists not to drive on levees as this issue unfolds.
